OUR HISTORY BELLCO'S TIMELINE

- 1936** Founded in 1936 as "Bell Co.," named for the bell-shaped lamp founts it originally produced.
- 1941** The company is incorporated and officially renamed Bellco.
- 1954** Products began to be sold directly to customers rather than through laboratory supply houses, and the company moved its focus to laboratory glassware.
- 1962** The company added laboratory equipment to its glassware line, responding to customers' growing needs and leveraging its established manufacturing capabilities.
- TODAY** Bellco is a trusted U.S. manufacturer, internationally recognized for delivering high-quality glassware and laboratory equipment, tailored to the ever-evolving needs of the biological sciences.

AMERICAN MADE

All Bellco laboratory products, glassware, and equipment are manufactured in Vineland, New Jersey, ensuring complete quality control and supporting American manufacturing.

MANUFACTURING

Rigorous manufacturing controls guarantee all products meet or exceed industry standards and specifications.

QUALITY

Our quality commitment begins with careful raw material selection and thorough documentation, delivering finished products that exceed customer expectations.

CUSTOMER TAILORED SOLUTIONS

We specialize in product modifications and custom solutions, maintaining the same high quality and fast turnaround times as our standard offerings.

CUSTOMER SERVICE

Our US-based customer service team provides rapid response to inquiries and requests without time zone delays.

HEADQUARTERS

340 Edrudo Road | Vineland, NJ 08360

COMMITMENT TO QUALITY

- All USA-manufactured products are documented and conform to FDA and USP material standards.
- ISO 9001:2015 certification ensures quality standards throughout our manufacturing and decision-making processes.
- We maintain quality from design to delivery, making Bellco a recognized industry leader for over 65 years.
- Our goal is delivering the highest quality products and unmatched service to every customer.
- Quality performance defines Bellco Glass.

OUR FACILITY

MANUFACTURING CAPABILITIES

Sheet metal fabrication, CNC machining of stainless steel and plastics, surface finishing, and paint/silk-screening services.

GLASSWARE PRODUCTION

Complete manufacturing capability including custom projects by master glassblowers.

CUSTOM SOLUTIONS

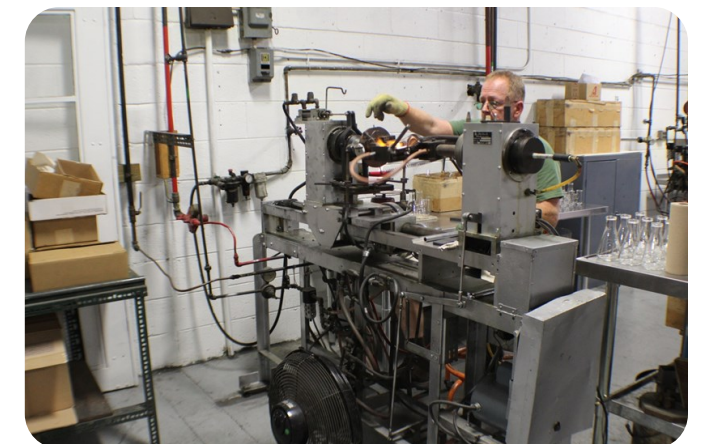

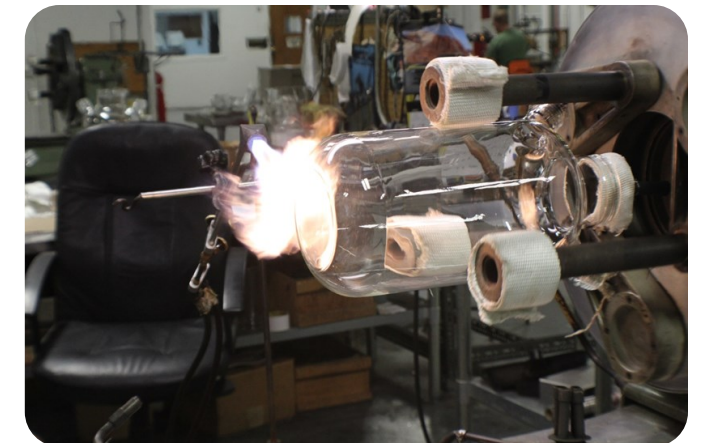

Technical design, engineering, and development services tailored to customer specifications.

QUALITY ASSURANCE

ISO 9001:2015 certified turnkey operations with documented quality control.

ADDITIONAL SERVICES

Private-label products available to select customers.

OUR PRODUCTS

Glassware

SPINNER FLASKS

For growing and maintaining cell lines

IMPELLERS

For mixing and gas exchange in Flasks and Bioreactors

STAINLESS STEEL PORT ASSEMBLIES

For introduction or removal of media and cell components into sealed vessels

WATER JACKETED FLASKS

For cell culture growth using water circulation

SHAKE FLASKS

For culturing microorganisms, cells, and other biological materials in liquid media, placed on orbital shakers for constant, gentle agitation.

BIOREACTORS

For growing and controlling cell and bacterial cultures

HOMOGENIZERS

For the manipulation of tissue samples and cell production

Equipment

INCUBATORS

For growing and maintaining cell lines in optimal conditions for biological samples

ROLLER APPARATUS

For the growth of adherent and non-adherent cell lines using gentle rotation to provide continuous, low-speed mixing

OVERHEAD DRIVE MOTORS

For mixing media and cells in Flasks and Bioreactors

HYBRIDIZATION OVENS

For hybridizing proteins on mesh components

SHAKERS

For the aeration of cultured cells or mixing of solutions through controlled agitation

ROCKERS

For gentle agitation of cell cultures or Western and Southern blotting protocols using a gentle see-saw or tilting motion

MAGNETIC STIRRERS

For use with Spinner Flasks to turn Impeller Assemblies, or general laboratory applications, providing hands-free mixing

BELCO PRODUCTS ARE DESIGNED FOR HOW YOU WORK

Because Your Research Isn't One-Size-Fits-All.

Need More Information?

Our customer service team is ready to help you find the right laboratory solutions for your specific applications. Contact us today to discuss your requirements, request custom modifications, or get expert recommendations.
